

Minahil Zahid

Mobile App Developer & UI/UX Designer

I am a BSIT graduate specializing in Android app development. I enjoy creating clean, user-friendly mobile (UI) interfaces and web dashboards, with hands-on experience in LMS projects and Android apps. I am also expanding my skills in Flutter and Dart while continuing to grow as a digital product designer.

Work Experience

Software & Web Designer (LMS Project)

Nov 2024 - July 2025

- Architected, designed, and optimized responsive frontend user interfaces for the institution's centralized Learning Management System (LMS).
- Built tailored UI dashboard layouts utilizing HTML, CSS, JavaScript, and Bootstrap for four primary system roles: Admin, Faculty, Management, and Students.

FYP Assistant Supervisor

May 2024 - Oct 2024

- Supervised, evaluated, and debugged mobile and web Final Year Projects (FYP) for graduating tech groups.
- Being a self-taught Android App Developer, guided students with practical experience in building functional mobile apps, troubleshooting technical issues, improving UI designs, and successfully completing their projects.

Projects

LMS Dashboard Design & Frontend Development

College LMS Project | Software Designer

Designed and developed responsive LMS dashboards for Faculty, Management, Admin, and Students, focusing on clean UI, usability, and intuitive navigation using HTML, CSS, JavaScript, and Bootstrap while working according to the college's functional requirements.

BitPad – Notes & Productivity App

Designed and developed an Android note-taking app with Jetpack Compose and Room Database, featuring note organization, categories, pinning, dark/light mode, and TXT/PDF export. Published on Google Play Store.
